CCC Internal Audit Worksheet

One process per sheet. Print extra sheets as needed.

Process audited		**Date of audit**		**Sheet**		**of**	
Auditor		**Auditee**					
Audited against							
What was sampled							

☐ I am not auditing my own work.

No.	What you found (the evidence)	Requirement it ties to	Result	Owner	Due	Closed
1			☐ C ☐ O ☐ NC			☐
2			☐ C ☐ O ☐ NC			☐
3			☐ C ☐ O ☐ NC			☐
4			☐ C ☐ O ☐ NC			☐
5			☐ C ☐ O ☐ NC			☐
6			☐ C ☐ O ☐ NC			☐

Result: C conforming, O observation, NC nonconformity. More than six findings on one process means the process itself needs attention.

Ask about these (aerospace and defense additions)

Configuration management	Is the revision you audited the one that was authorized, on the floor, and shipped?	☐ Asked ☐ N/A
Counterfeit parts	How was the material verified, and where is the record?	☐ Asked ☐ N/A
Special processes	Is the process approved, the operator qualified, and the parameters recorded?	☐ Asked ☐ N/A
First article	Was one done for the new or changed part, with every characteristic accounted for?	☐ Asked ☐ N/A
Product safety	Are safety-critical items identified, and how would someone raise a concern?	☐ Asked ☐ N/A
Flowdown	Did the customer's requirements reach the supplier in writing, and can you show it?	☐ Asked ☐ N/A

These prompts are reminders, not a complete audit.

This is Cornett Consulting Company's own worksheet. It is not an IAQG or SAE form and makes no claim of compliance. **Your customer's requirements and the current standard come first.**
