Risk and Opportunity Starter Sheet

About 15 minutes. Three risks. Three opportunities. One next step each.

How to use it: write the three things most likely to hurt the work, then three things that could make it better. Rate each Low, Medium or High (L / M / H), name one owner, and write one next step with a date. Aim for started, not complete.

Risks: what could go wrong

#	What could go wrong	How likely? L/M/H	How bad? L/M/H	Owner	Next step and date
