

JOB-SITE CALLBACK CHECK SHEET

Tally every callback the day it comes in. Total it Friday. **Fix the biggest number first.**

A JOB INFO

Company		Week of	
Crew lead		Filled out by	

Job type	☐ Re-roof	☐ Repair	☐ New build	☐ Other:	
----------	----------------------------------	---------------------------------	------------------------------------	---------------------------------	--

B WEEKLY TALLY

#	Callback reason	Mon	Tue	Wed	Thu	Fri	Sat	Total
1	Flashing leak							
2	Nail pop / exposed fastener							
3	Shingle blow-off							
4	Gutter / downspout damage							
5	Cleanup complaint							
6	Interior leak / stain							
7								
8	Other							
	WEEK TOTAL							

Row 7: write in your own reason. Make a tally mark (|) for each callback, or type a number. Cross every fifth mark: |||| becomes one group of five.

C CALLBACK DETAIL LOG

#	Date	Job / address	Reason #	Crew	Cause code
Log 1					
Log 2					
Log 3					
Log 4					
Log 5					

Cause codes: **M** = Material **I** = Install **W** = Weather **C** = Communication **U** = Unknown

D FRIDAY REVIEW

Top callback this week	
Likely cause	
One fix to try next week	
Who owns it	
☐ Reviewed Monday. Date:	

1 Tally daily Mark each callback on the day the call comes in, not from memory.	2 Total Friday Add up each row and the week. Log the details for each callback.	3 Fix the top one Pick one fix for the biggest row. Review it Monday. Edit reasons to fit your trade.
